eBay Store & Listing Design

**ENTERPRISE
PACKAGE**

Enterprise Package

A smart eBay Store Design builds customer trust and could help you increase online sales by 35%. It is by no surprise that a dynamically designed, user friendly store achieves far greater feedback, increased sales success and an ever growing customer base.

Our team provides consistent, high quality designs making your eBay store visually appealing and highly functional.

Build Lead Time

5 weeks approx

The project lead time begins once all required documentation is supplied.

Please Note: Whilst we take every care to give an approximate lead time for your project, we cannot predict how many design revisions will be required until we begin the work.

Pricing **£1495** ex VAT

Limited Time Offers

If you want to attract more attention to your promotions, we can provide a product offer countdown which will entice customers to buy quickly before the offer ends. This is proven to be more effective than a standard product offer and can result in quicker sales.

The screenshot shows the Currys PC World eBay Store homepage. At the top, there's a search bar and navigation links for various product categories like Kitchen Appliances, Small Appliances, TV & Entertainment, Cameras, Audio, Computing, PC accessories, Phones, Smart Tech, and Clearance. Below the navigation, there are several promotional banners and category placeholders.

Rotating Banners: A large banner in the center features a 'Save up to 40% on large kitchen appliances' offer, with images of a washing machine and a refrigerator. To its left is a 'Weekly Deal' for a SEIKI LED TV, and to its right is another 'Weekly Deal' for a TV. Below these are four category placeholders: Kitchen Appliances, TV & Entertainment, Cameras, and Computing, each with a 'Shop all >' link.

Featured Categories: The category placeholders are designed to promote key product areas and include sub-category links like 'Dishwashers', 'Fridges & Freezers', 'Ovens/Cookers/Hobs', 'Washing Machines', 'Televisions', 'Gaming & Consoles', 'DVD, Blu-ray & Home Cinema', 'Home Audio & HiFi', 'Digital Cameras', 'Lenses', 'Camcorders', 'Telescopes', 'Desktops', 'Laptops & Netbooks', 'Tablets & eReaders', and 'Printers, Scanners & Inks'.

Featured Items Carousel: At the bottom, there's a 'Special Offers' carousel with four featured items, each with a discount badge and a 'Shop all >' link: Toshiba Camio Allu 3S Portable Hard Drive (Save 14%), Hotpoint S1E40 BAO Quick Perfection Steam Iron (Save 60%), Logitech L1W010E Wired USB Optical Mouse (Save 72%), and iWantTV iC31PC3 Apple iPhone 5c Screen Protector (Save 60%).

Rotating Banners

Rotating banners are an extremely effective way to divert your visitors attention to a selection of sales driven adverts. You can highlight multiple promotions at once as they rotate through a smooth transition display.

Featured Categories

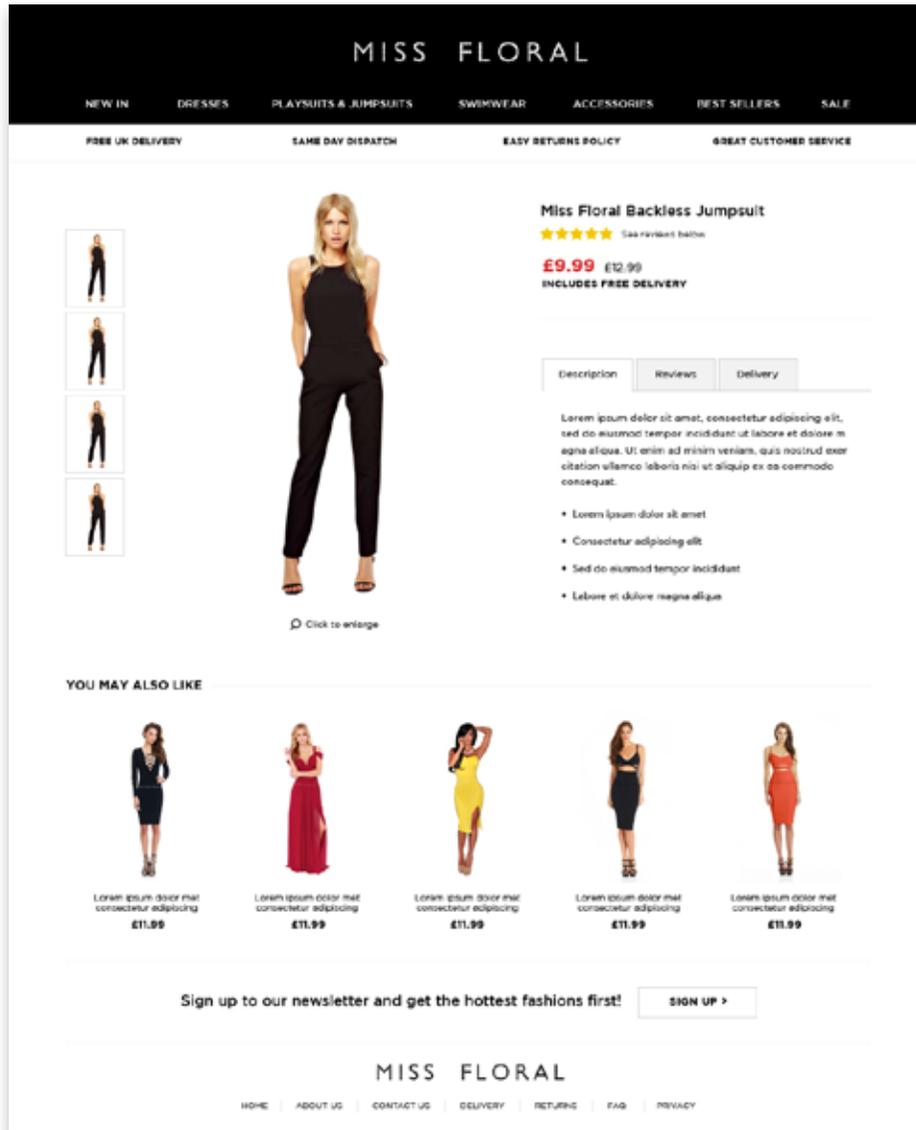

Use key placeholders to promote and upsell your best selling categories. We can enable dynamic sub-category breakdowns giving your customers easy access to deep links within your store.

Featured Items Carousel

Upsell your best selling products, or display your latest arrivals. Take advantage of our highly configurative featured product boxes giving you the control you need to push for new sales.

Creative Listing Design

All of our listing designs have the customers usability in mind. We ensure the layout is easy to read and understand resulting in higher conversion rates than your competitors.

Product Labels

Visually appealing product labels, such as Free Delivery, etc and function buttons improve the customer's shopping experience.

Customer Reviews

Reviews are important to build trust with new customers. It gives a customer an opportunity to express satisfaction with your products and service.

Responsive design can increase sales and massively improves user experience

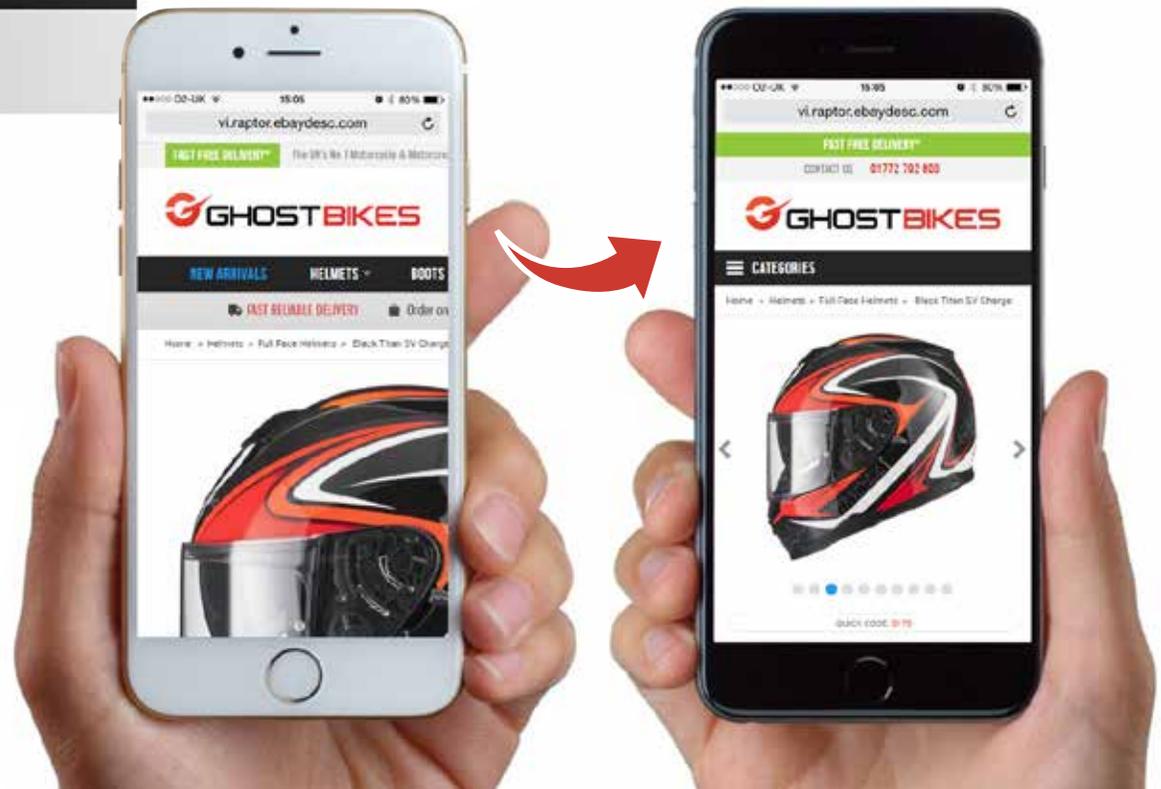

A responsive design makes your eBay listing viewable on any device, through any size screen. Whereas customers were once taken to a separate mobile app which had limited accessibility, responsive design means key features are clearly displayed regardless of how you are viewing it.

We make sure your eBay listings get the best out of hand-held device usability, enabling you to maximise potential sales through strategically placed products and promotions.

Search & Navigation

Structuring your navigation plays an important role in how customers find your products. Our navigation features combined with advanced search provides a robust solution to easy conversions.

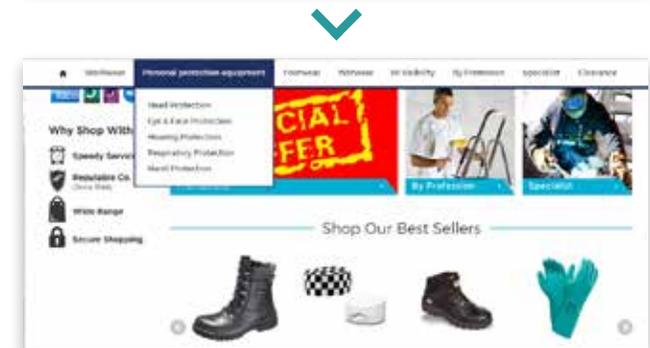

Search Features

Our search technology works directly with eBay's own search platform to provide the most comprehensive results possible. We do however have some advancements of our own including a fully dynamic search suggestion module which allows you to control the sorting by best sellers, quantity available or even price.

Mega Drop-down Menus

Provide your customers with clean and easy to use navigation. Featuring a fully functional and dynamic three level mega menu loaded with best sellers, new arrivals or even filters to provide an even more refined navigation experience.

Quick and easy
Search & Navigation
on the move

Sticky Navigation Menus

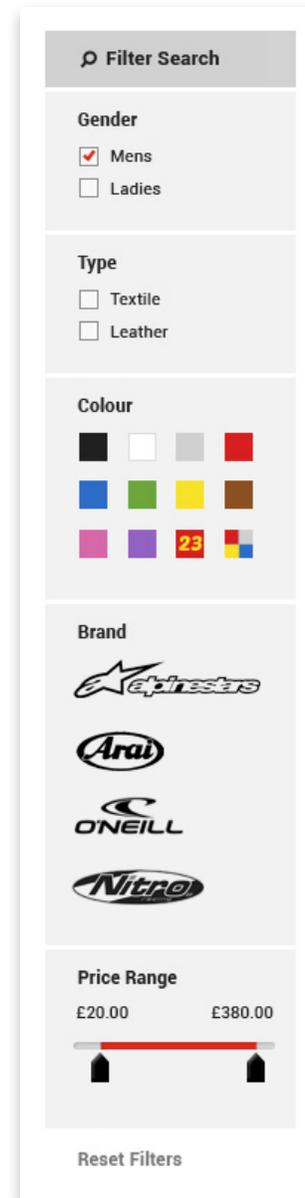

Take advantage of our sticky category navigation feature to improve your customers overall browsing experience by reducing unnecessary scrolling.

The most flexible and configurative eBay faceted search technology ever built

Helium³ is the only true flexible faceted search widget available for eBay shops. It's a widget which significantly improves search and conversion by taking customers directly to the products they want without excessive browsing.

- ✓ Dynamically synced with eBay
- ✓ Faceted side menu searches
- ✓ Filter customisation per category
- ✓ Supports images/brands
- ✓ Supports sliders
- ✓ Supports tickbox options
- ✓ Show/Hide GUI
- ✓ Scroll box support
- ✓ Handles keyword searches
- ✓ Handles price range searches
- ✓ De-selection feature
- ✓ A-Z support
- ✓ Gallery/List view support
- ✓ Open configuration file support
- ✓ Header menu dropdowns
- ✓ Best seller support
- ✓ Customised product GUI output
- ✓ Filter advert dynamics
- ✓ Black/White filter lists
- ✗ Intelligent cross promotions
- ✗ Product attributes display
- ✗ Multi-language support
- ✗ Cross border trade support
- ✗ Filter landing pages

✗ Upgrade package for these features

Filters

The filters are set up as a faceted search, eliminating filter combinations which yield no results on selection. As a result, the search will always return a product regardless of the criteria selected for your custom search.

Colour Swatches

Very similar to graphic icons, we can provide vast range of colour swatch selectors making the colour selection process easier.

Graphical Icons

If you would like to display your filter options as graphics such as a brand logos rather than text, you can take advantage of our graphic selectors feature. This will enhance the interactive experience of your filters.

More Features

Cassini Search Friendly

Our listing solutions can be specifically tailored to improve the visibility within eBay's own search technology. Our framework is specifically configured to ensure best positioning based on extensive research and environmental testing.

Themed Content Pages

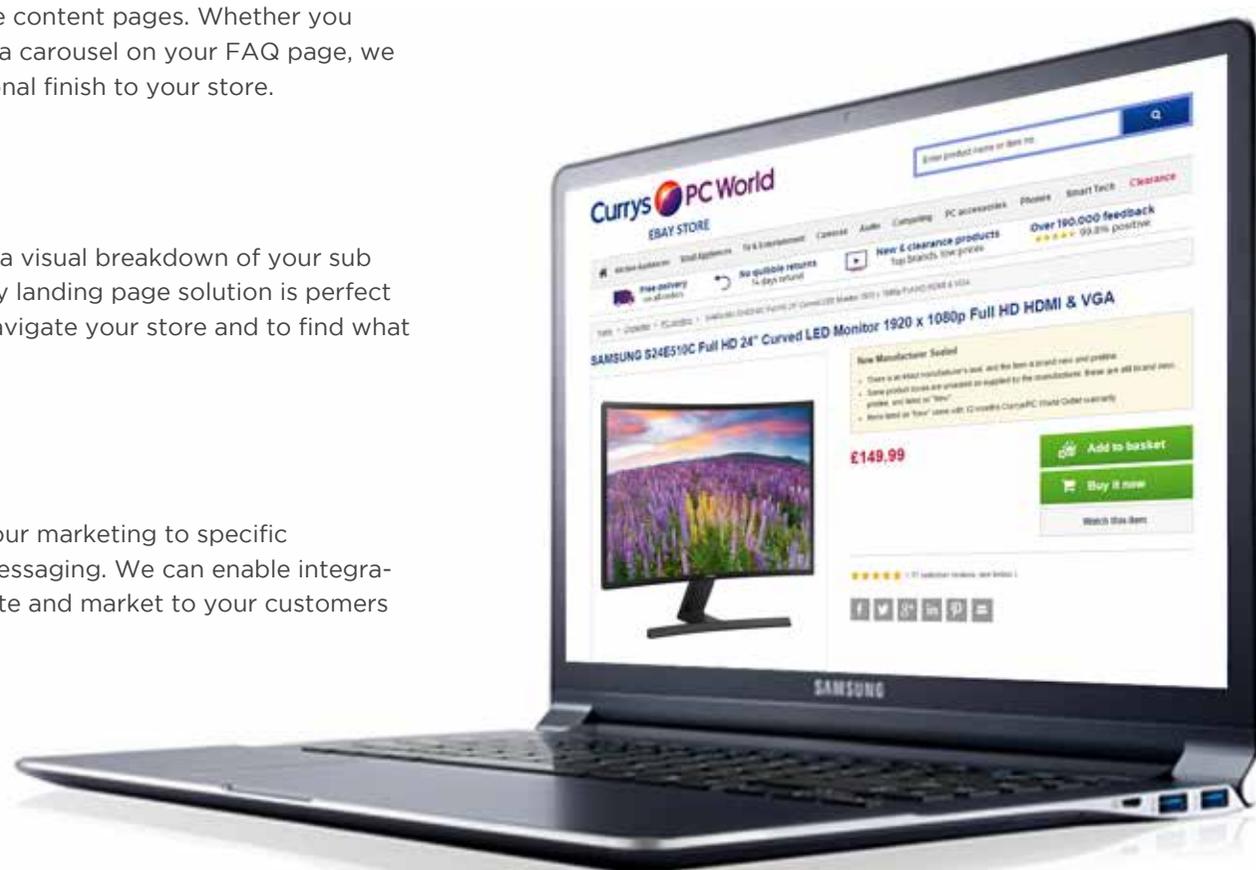

Engage and build trust with your customers with creative content pages. Whether you need a customised layout for your contact page or even a carousel on your FAQ page, we have the right solutions for you to give a highly professional finish to your store.

Category Landing Pages

Are you wanting to drive specific promotions or provide a visual breakdown of your sub categories within top level categories? Then our category landing page solution is perfect for just that. These landing pages enable customers to navigate your store and to find what they are looking for more easily.

3rd Party Mailing List Integrations

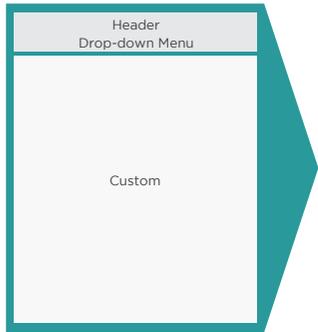

eBay's own mailing list solution is limited and restricts your marketing to specific dynamically generated templates with little control or messaging. We can enable integration into 3rd party mailing lists to ensure you can promote and market to your customers more effectively.

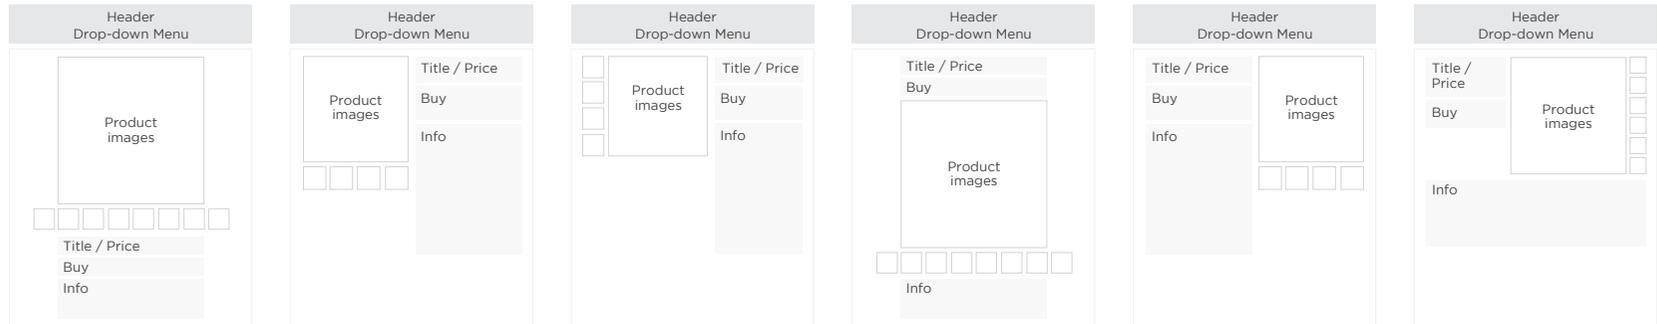

Layout Choices

Choose from a wide range of layouts to suit your product needs.
